The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

NEW SPRING EMBROIDERIES

Are on our counters now. In great variety of styles and patterns. New matched sets are shown in Cambrics and Nainsooks and fine Swisses. A splendid line of Wide Flouncings are on display.

NO POLITICS TO FIGURE IN NEW DISTRICTS

SENATOR GRUBE DECLARES REAPPORTIONMENT WILL BE FAIR BECAUSE OF SUPREMACY OF THE COURT.

MARSHALL AND FULTON

Legislator From Plymouth Wishes to Get Loose from District With Kosciusko County.

Indianapolis, Jan. 30.—A fair redistricting of the state for legislative purposes will be arranged by the present legislature, if the sentiment of Senator Harry L. Grube of Plymouth, chairman of the senate reapportionment committee, is adopted by the general assembly.

Senator Grube will call his committee together probably today to take up the work of arranging the senatorial and representative districts in conformity with the voting ratio necessary to keep the number of senators at 50 and the members of the house at 100.

By the state constitution there must not be more than 50 senators and 100 representatives, but there may be less. There will be no less, however, according to Senator Grube but the shifting of population in the state since the last reapportionment will require many changes.

"Politics," says Senator Grube, "will not enter into the redistricting of the state. We have a republican supreme court that would invalidate an unfair reapportionment and there is no disposition to do so at any rate. Yes, it is true that the last reapportionment was very strongly favorable to the republicans, but the shifting of the population has been such as to render the gerrymander ineffective, as the present democratic legislature bears witness.

"The reapportionment should be made every six years and the one we are called to act on was the duty of the legislature of 1909. For that reason we are making a reapportionment for the next four years instead of the next six and the old one will have stood for eight years."

Basis of Apportionment
The basis of the apportionment is one senator for every 14,905 votes in the state and one representative for every 7,453 voters. The state of Indiana increased in population practically seven per cent, while many cities grew much in excess of that rate. The gas belt is pointed out by Senator Grube as a district that has lost in population while Indianapolis and other larger cities have

FORBES' SEED STORE.

grown till the representation is far too low. Lake county is another district which is on the increase.

In the house the legislative reapportionment will be cared for by Representative Charles Lieb, of Spencer county, and he will call to gether his committee early in the week for the purpose of preparing the first plans of the bill.

A caucus, possibly of the majority of both houses will be held on the reapportionment bill. It is the desire of some of the members of the committees to have the caucus for the purpose of getting a general idea of the wishes of the party, but it is thought that action will not be taken till at least a tentative arrangement has been agreed upon in the committee.

It is well known here that Senator Grube is very anxious to get loose from Kosciusko county and to tie Marshall up with Fulton. In this way he can hope to remain senator for an indefinite time. It is thought too that the Thirteenth district will be changed, the most probable suggestion being that Kosciusko county will be put into the Twelfth and Laporte added to the Thirteenth.

HOUSE BURNS IN TIPPECANOE

EMANUEL HORN AND FAMILY COME HOME FROM A VISIT TO FIND THEIR HOUSE IN ASHES.

The house of Emanuel Horn, south of town, was burned Saturday evening. Everything in the house was consumed. The children had driven to town to attend church and Mr. Horn and wife and small child had gone to visit a neighbor, half a mile away. The cause of the fire is a mystery. When first seen the building was past saving.

Mr. Horn carried a small insurance which will repair a part of his loss. Friends and neighbors rallied to their help. They had nothing left except the clothing which each wore.

To save money on fence see Buck, w2-23.
